A few pointers when you're planning your time at camp*

1. Pick something fun.
2. Pick something that's new to you that you want to find out more about.
3. Fill your time, but don't overwhelm yourself with too many hard ones. Leave some time for homework.
4. Some are easy – basketry, leatherwork, fishing, nature, art, sports
5. Some help with other rank advancement requirements – swimming, cooking, first aid
6. Some you should be comfortable in the water and in good shape for – canoeing, swimming, rowing

7. Some are easier if you're older – holding and aiming a bow, rifle, shotgun
8. Some are hard to fulfill elsewhere – environmental science
